Can I pick up a hot dinner package?

No, but we provide reheating instructions for all items with the dinner package.

How do I reheat?

Your meal will be ready in approximately 2 hours.

A complete set of reheating instructions will be included with your dinner package. We recommend that you put all side dish containers on a baking sheet in the oven, rather than directly on oven racks.

Can the turkey be pre-carved?

No. Reheating a carved turkey will dry it out.

Is the turkey stuffed?

The turkey isn't stuffed. However, you can select stuffing as one of your four side options.

Which side of the ham should be down when reheating?

Place the ham, cut side down, in a roasting pan.

How do I prepare the maple glaze and the honey mustard cream sauce that come with the ham dinner package?

The maple glaze should be poured over the ham before it goes in the oven, and the honey mustard cream sauce can be used like gravy - just warm, and serve at the table!

Does the turkey need to be basted periodically during reheating?

The turkey has been brined for maximum juiciness. It does not require basting during reheating.

Do I remove the meat from the plastic bag before cooking?

Yes.

Do I remove the clear plastic lids from the sides before reheating?

Yes.

When I remove the plastic covers on the sides, do I need to cover with tin foil when reheating?

No need to cover when reheating.

Can I reheat the sides in the black plastic containers?

Yes.

Should I cover the turkey with foil while reheating?

No, otherwise the skin won't get crispy.

Can the meal be reheated in the microwave?

The sides can be reheated in the microwave, but the turkey and ham should be reheated in the oven.

Can I freeze the items if I don't use them right away?

All the items can be frozen when transferred to freezer recommended containers.

A dessert is not included, but our Bakery Department has a wide variety of fresh pies, cakes and dessert options for you to choose from.
